

Ditrac®

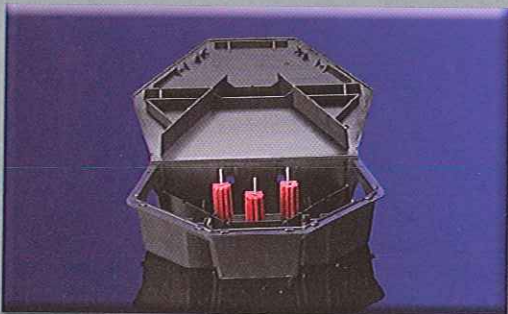

BRODIFACOUM BAIT FORMULATIONS

- Rodents love to gnaw on the cog-shaped Blox

- Blox are easily secured in mouse or rat bait stations

Ditrac®

✓ Effective

- Contains the powerful active ingredient Brodifacoum
- Effective on both rats and mice
- Works especially well to clean out persistent mouse infestations where control is difficult or resistance is suspected

✓ Palatable

- Formulated with over 16 food-grade ingredients and taste enhancers for a flavor rats and mice can't resist
- Competes well against other food sources

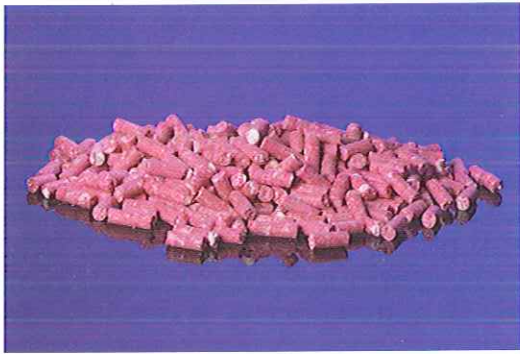

✓ Weatherable

- Extruded Blox offer high weatherability while maintaining high palatability
- Extruded pellets offer higher weatherability than meal or seed formulations

Ditrac®

Pellets

- Hardness of pellets satisfies rodents' desire to gnaw
- Works well for burrow baiting
- More weatherable than meal baits

Blox

- High weatherability - can be used in damp conditions
- Unique cog-shaped extruded Blox provide multiple edges appealing to rodents' desire to gnaw
- Blox fit in Bell's mouse or rat-size, tamper-resistant bait stations or can be nailed to rafters and ceilings or hung in hard-to-reach places where rodents travel
