Chaindrite2 Metered Insect Spray is compatible for use in most automatic aerosol dispenser machines that are available in the market.

ENVIRONMENTALLY FRIENDLY

CHAINDRITE2 Metered Aerosol contains natural pyrethrins as opposed to most household insecticides that contain synthetic pyrethroids which are synthesized in a laboratory.

Pyrethrins are natural insecticides which are found in *Chrysanthemum cinerariaefolium*, a perennial plant with a daisy-like appearance grown and extracted right here in Australia.

Pesticide products containing naturally occurring pyrethrins are known to break down rapidly in the environment.

These aerosol products do not contain CFC's

PRODUCT FEATURES

- Natural plant based Insecticide (Pyrethrins)
- Biodegradable ingredients
- 24 Hour protection (day and night)
- No residue on floors, walls, furniture
- Safe to use around children and pets
- Adjustable automatic dispenser
