

## Selleys Spakfilla Coloursmart

### Description

Selleys Spakfilla Coloursmart is a lightweight filler which contains a dry time indicator that goes on pink and dries off-white, taking the guess work out of knowing when to sand & paint.

Protect from rain until dry and painted over with 2 coats of paint.

Where movement occurs, use Selleys No More Gaps.

Some paints may temporarily discolour when applied over the filler, but will revert to the correct colour once dry.

### Product Information

Packaging	Size
Tub	180g / 400mL

### Clean Up

Use water before filler sets.

### Uses

Ideal for filling plaster, plasterboard, masonry, wallboard and primed nail heads.

### Storage

Keep container closed when not in use. Store in a cool, dry place.

### Features

- Goes on pink, ready when white
- Easy to sand
- Ready mixed
- Interior/exterior

### Limitations

- Do not use on plastic, metal or exterior timber likely to swell/shrink on absorption of water.
- Avoid using below 5 °C or in wet conditions.
- Do not nail.

### Technical Details

Property	Typical Result
Appearance	Pink paste
Drying time (2 mm)	2 hours Allow longer if deeper or cold/humid.
Indicative data only, not intended for preparation of specifications	

### Warnings, First Aid and Shipping Information

This information can be located on the product SDS found through our website – [www.selleys.com](http://www.selleys.com)

### Surface Preparation

Surface must be clean, dry and free of loose or protruding material – sand surface lightly if necessary.

### Directions for Use

1. Using a spatula provided, press filler firmly into hole/crack and smooth off – no need to overfill. It has minimal shrinkage – only one easy application needed for holes up to 10 mm deep.
2. Sand and paint with water-based paints after product turns off-white

### Tips

Allow at least 24 hours if painting with oil based paint.
