

PRODUCT FEATURES

Manutec Moss Killer & Lawn Food controls moss and feeds lawns in the one application. Also encourages grass growth to rapidly fill in any bare patches left by dead moss.

Follow the directions on the package and apply accordingly.

CAUTION: Keep out of reach of children. Do not apply to concrete, slate or bricks in paths, patios and fences as staining may occur.

ANALYSIS

ANALYSIS

%W/W

Nitrogen (N) as Ammonium Sulphate	10.5
Iron (Fe) as Ferrous Sulphate	10.0
Sulphur (S) as Sulphates	12.5

DIRECTIONS FOR USE

To be used for grass lawns, non-concrete paths and driveways, tennis courts.

Purpose	Rate
Controlling Moss	500 grams per 20 square metres
Feeding Lawn & Controlling Clover	500 grams per 10 square metres

Not to be used for any purpose or in any manner contrary to this label unless authorised.

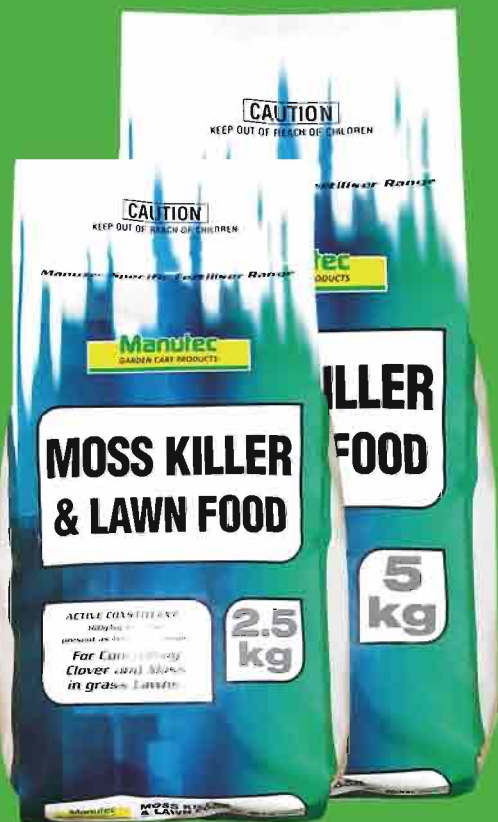

Pre-treatment: Apply only when dry, mild weather is expected. Do not mow lawn before application. If the lawn is dry, water the area to be treated the day before to moisten the soil.

Treatment: Apply at rate as shown in directions above. Spread evenly over the treatment area.

Post-treatment: 48 hours after application, and unless rain has started, water liberally. This treatment may affect grasses by darkening or browning leaves, but recovery to a dark green colour will result after several days.

Store in the closed, original container in a cool, dry place out of reach of children. Do not store in direct sunlight. Dispose of empty packaging by wrapping in paper, placing in a plastic bag and putting in garbage.

Note: this product has been registered under the regulation of Australian Pesticide and Veterinary Medicines Authority.
