WHEN DO I FEED MY LAWN?

Apply anytime of year. For best results feed three times per year.

ONE ANNUAL FEEDING
IN EARLY SPRING

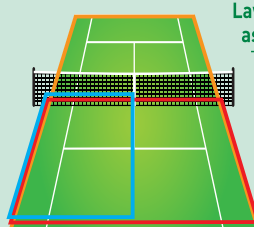

SECOND ANNUAL FEEDING
IN EARLY SUMMER

THIRD ANNUAL FEEDING
IN AUTUMN

HOW MUCH WILL I NEED?

Lawn Builder is unlike traditional fertilisers as you use **less to feed more**.

To determine the size of your lawn in m², multiply the length by the width in metres.

- ¼ of a tennis court equals approx **65m²**
- ½ of a tennis court equals approx **130m²**
- 1 whole tennis court equals approx **260m²**

You will need to apply **14g/m²** of your lawn.

This pack treats
175m²
That's more than
½ a tennis court!

HOW DO I APPLY IT?

DRY METHOD

During water restriction periods, apply to lawn without watering in. Scotts Lawn Builder is safe on lawn until next rain or watering, when evenly and correctly applied with a spreader. Guaranteed to green the lawn within one week of obtaining moisture.

FAST METHOD

Greener in 2 days with watering. For fast results apply to moist foliage, wait 24 hours then water in thoroughly.

For best results use a Scotts Spreader, however if applying by hand ensure even distribution.

APPLYING BY SCOTTS SPREADERS

EvenGreen Drop Spreader
- SETTING 6

EasyGreen Rotary Spreader
- SETTING 26½

HandyGreen Hand Held Spreader
- SETTING 3

- Sweep excess granules off paths, driveways, shoes, etc. to avoid iron stains. See important note below.
- Do not use on a new lawn less than 8 weeks old. Use Lawn Builder Seed & Turf Starter Fertiliser instead.
- Use half of the suggested rate for summer application on cool season grasses, e.g. Bent Grass.
- Fertiliser application should be avoided if temperature is expected to exceed 30°C.
- Scotts Lawn Builder is not recommended for use on other plants.

IMPORTANT

This product when wet, will cause iron stains. Be sure to sweep all granules off paths, coping, paving, driveways, shoes, etc. immediately after use. Do not allow the granules to come into contact with these surfaces when wet.

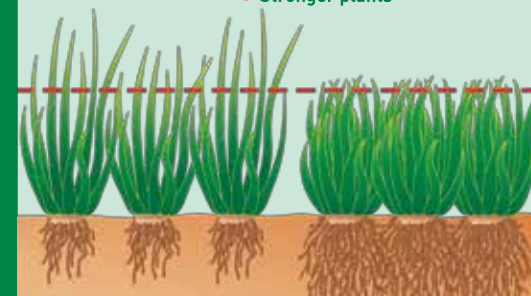

All Purpose

SLOW RELEASE LAWN FERTILISER

Scotts Lawn Builder delivers superior results vs traditional fertilisers

- Deeper green
- Thicker lawn
- No surge growth, less mowing
- Deeper root system

PROFESSIONAL QUALITY GUARANTEE

Scotts

The Scotts Difference

Unlike traditional fertilisers, every particle of Scotts Lawn Builder™ contains Scotts patented timed-release Nitrogen and Potassium, formulated to release nutrients just as your lawn needs them.

✓ Your lawn will be greener and stay greener for up to 3 months.

✓ Controlled feeding eliminates waste, prevents burning and surge growth.

^okay to re-enter lawn after application
*when used according to directions
