

Lawn Builder™

THICK & GREEN

Feeds for 3 months to thicken and green all lawns

DEEP GREEN RESULT

Feeds the lawn without surge growth

REPAIRS THIN LAWNS

Grow a thicker lawn and reduce the growth of weeds

HOW TO USE

1. **CALCULATE** how much to use (see side of pack) and determine your application method.

2. **APPLY** evenly to grass. Ensure granules are swept off hard surfaces.

3. **WATER** in thoroughly. You'll see visible green-up within 3 days of watering.

WATER SAVING TIP

During water restrictions, Lawn Builder can be applied without watering. The formulation is safe on lawns until next rainfall when correctly and evenly applied with a spreader. Guaranteed to green the lawn within one week of obtaining moisture.

WHEN TO APPLY

Spring is the ideal time to feed your lawn. Resulting in a thicker, healthier, more robust lawn.

Autumn feeding will help repair summer damage and build winter resistance.

Early Summer feeding will keep your lawn green & build resistance against the summer heat.

Winter Boost. Lawn Builder liquid fertilisers are a great alternative to granular fertilisers.

For best results, feed three times per year.

3 MONTH SLOW RELEASE TECHNOLOGY

- ✓ **Stronger Lawn** Improves the lawn's ability to survive and recover during weather extremes.
- ✓ **Less Mowing** Nutrients are consistently delivered over 12 weeks, preventing surge growth.
- ✓ **No Burn, No Waste** Slow release eliminates the risk of burn damage and nutrient waste.
- ✓ **Better for our Waterways** Less nutrient run-off and leaching reduces freshwater contamination.
- ✓ **Cooling the Environment** Slow release builds a healthier lawn reducing temperatures compared to urban areas.

SUSTAINABILITY COMMITMENT

We support responsible sourcing and are consistently improving our product profile.

HOW MUCH TO USE

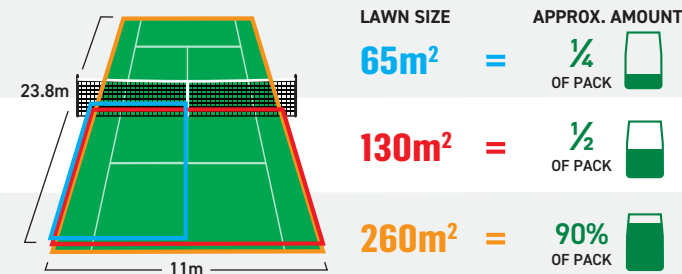

Use less to feed more with Lawn Builder.

This pack treats 285m² - more than the size of a tennis court. Just 14g per square metre.

To determine the size of your lawn in square metres, e.g:

$$11\text{m (wide)} \times 11.8\text{m (length)} = 130\text{m}^2$$

$$130\text{m}^2 \times 14\text{g} = 1.8\text{kg}$$

For more information scan QR code or visit www.lawnbuilder.com.au

HOW TO APPLY

BY HAND: Scatter the fertiliser in an even motion. We recommend wearing gloves.

BY SPREADER: Use the appropriate spreader setting.

HandyGreen Handheld Spreader
Setting: 3

EasyGreen Rotary Spreader
Setting: 23

IMPORTANT: This product, when wet, will cause iron stains. Sweep granules off paths, paving, driveways, shoes etc before contact with water.

- Do not use on a new lawn less than 8 weeks old. Use Lawn Builder™ Starter instead.
- Fertiliser application should be avoided if temperature is expected to exceed 30°C.
- Scotts™ Lawn Builder™ is not recommended for use on other plants.
- *Okay for humans, dogs and cats to re-enter lawn after application.
