

# Lawn Builder™

### PLUS WETTING AGENT

Combined with fertiliser, helps key nutrients to penetrate the soil

### IMPROVES WATER RETENTION

Improves drought tolerance and reduces run-off

### PROMOTES GREEN UP

Continues to feed, green and thicken for 3 months

## HOW TO USE

**1. CALCULATE** how much to use (see side of pack) and determine your application method.

**2. APPLY** evenly to grass. Ensure granules are swept off hard surfaces.

**3. WATER** in thoroughly. You'll see visible green-up within 3 days of watering.

### WATER SAVING TIP

\*During water restrictions, Lawn Builder can be applied without watering in. The formulation is safe on lawns until next rainfall when correctly and evenly applied with a spreader. Guaranteed to green the lawn within one week of obtaining moisture.

## WHEN TO APPLY

**Spring** is the ideal time to feed your lawn. Resulting in a thicker, healthier, more robust lawn.

**Autumn** feeding will help repair summer damage and build winter resistance.

**Early Summer** feeding will keep your lawn green & build resistance against the summer heat.

**Winter Boost.** Lawn Builder liquid fertilisers are a great alternative to granular fertilisers.

For best results, feed three times per year.

## 3 MONTH SLOW RELEASE TECHNOLOGY

- ✓ **Stronger Lawn** Improves the lawn's ability to survive and recover during weather extremes.
- ✓ **Less Mowing** Nutrients are consistently delivered over 12 weeks, preventing surge growth.
- ✓ **No Burn, No Waste** Slow release eliminates the risk of burn damage and nutrient waste.
- ✓ **Better for our Waterways** Less nutrient run-off and leaching reduces freshwater contamination.
- ✓ **Cooling the Environment** Slow release builds a healthier lawn reducing temperatures compared to urban areas.

## SUSTAINABILITY COMMITMENT

We support responsible sourcing and are consistently improving our product profile.
