

PRODUCT INFORMATION

PowerFeed Controlled Release TOMATOES & VEGETABLES

PowerFeed Controlled Release Plant Food Tomatoes & Vegetables with Troforte is a dynamic mix of nutrients, seaweed and microbes for all tomato and veggie plants.

A premium performer for gardeners who only want the best for their veggie patch, it delivers a high analysis nutrient and trace element mix for a bumper crop of tasty tomatoes & vegies.

Boosted with seaweed to help improve plant health it stimulates strong root development and increases tolerance to heat, drought, frost pests and diseases.

Containing granules coated with beneficial microbes (Troforte technology), it helps to condition the soil to aid nutrient and moisture retention.

INSTRUCTIONS FOR USE

PowerFeed Controlled Release Tomatoes & Vegetables is a granular fertiliser that releases a balanced nutrient mix to a plant when it needs it, so it's easy to use once every season.

Generally, for an established veggie garden use 90 grams (6 tablespoons) per square metre or follow the application table below for more specific rates. Apply by mixing into the topsoil or potting mix and water it in thoroughly after application to get those microbes working.

PLANT TYPE	APPLICATION 1 tablespoon = 15 grams	APPLICATION FREQUENCY
Indoor and Outdoor - 15cm pot	1 tablespoon	Every season - 3 months
Indoor and Outdoor - 20cm pot	2 tablespoons	Every season - 3 months
Indoor and Outdoor - 25cm pot	3 tablespoons	Every season - 3 months
Indoor and Outdoor - 30cm pot	4 tablespoons	Every season - 3 months
Seedlings	½ tablespoon per m ²	Every season - 3 months
Young Vegetables	3 tablespoons per m ²	Every season - 3 months
Established Vegetables	6 tablespoons per m ²	Every season - 3 months

TYPICAL ANALYSIS

W/V: Nitrogen (N) 14.0%. Phosphorus (P) 1.4%. Potassium (K) 9.0%

A probiotic for veggie plant and soil health

Stimulates flowering & fruiting to increase yields of tastier edible produce

Promotes strong root growth and reduces environmental stresses

Improves the soil structure to help plants access nutrients within the soil

USAGE TIPS

PowerFeed is the perfect partner for any veggie garden or pot applied whenever it is needed.

- ✓ For best results, move mulch, mix product into topsoil or potting mix, water it in and return the mulch.
- ✓ To save water, apply before or during rain, to get the microbes working.
- ✓ Ideal to use at planting to aid plant establishment and root development.
- ✓ Apply when harvesting vegies. Wash all edible produce before eating.
- ✓ Apply when maintaining plants. Check for pests and diseases and prune back affected foliage.
- ✓ To avoid plant stress on hot days, apply early in the morning or late in the day when it is cooler.
